

Ultra ALS Roller - 32475

Designed from our heavy duty nylon and durable universal precautions material, the Iron Duck Ultra ALS Roller is made for you to not only be organized but to quickly and easily carry all of your ALS and oxygen supplies.

Gain quick access to your AED that is secured in the front bottom pouch with quick release tie downs. In the back there is a flat pouch to store your electrodes, pads and other prep tools. The other exterior pocket can hold cervical collars and store straps.

Slide the heavy duty double zippers to open the main compartment to find several customizable organization options. On the inner lid you will find three removable color coded pouches with clear windows to hold supplies. Behind this lid you will find two zippered inner pockets for flat supplies. The removable dividing panel offers a combination of both flat zippered and clear gusseted pockets for intubation supplies. The oxygen compartment is equipped with quick-release tie-downs to secure a "D" or a Jumbo "D" oxygen tank. On each side of the oxygen tank, you will find a mid-size mesh pockets to hold portable suction and BVM supplies. To prevent wear the corners have been reinforced with high density plastic. Pull the durable sliding handle and roll your ALS roller anywhere on it's rugged wheels.
