

AMK – Airway Management Kit 33040

> Dimensions: 34”L x 26”W

Made from heavy duty nylon, our Airway Management Kit (AMK) will help you store and organize your intubation tools securely, and access them easily when you need them most.

Open the compact unit with the secure quick release buckles. When you open the AMK, you will find five zippered compartments with elastic tool holder.

These compartments and holders will help you organize your airways, handles, blades, tubes and more.
